PROJECTS

Linger [GitHub](#) | [Live webpage](#)

- Built with React.js and Three.js rendered by react-three-fiber.
- This is an interactive 3D web application built out of experimentation with WebGL.

Curo [GitHub \(Client\)](#) | [GitHub \(API\)](#)

- Built with TypeScript, React, Express.js and Postgres.
- This started out as a Trello clone and developed into a project management tool for makers, such as artists and crafts people.

EXPERIENCE

EyeCue Lab, Portland, OR — Intern (2021)

- Built an application from start to finish, including planning, programming and testing, with the support of the EyeCue Team.
- The internship allowed me to work daily as a Junior Developer as part of a simulated dev team in an agile environment.
- Frontend and Backend work on an app build with TypeScript, React, Express and Postgres.

Cultural Vistas, New York, NY — Administrative Assistant (2019 - 2020)

- Answered the main phone line where I answered general questions regarding the J-1 Visa process and actively tracked new business opportunities.
- Emphasized client retention and growth by providing excellent service and follow up to leads.
- Interviewed J-1 Visa applicants to assess their English level.
- Prepared daily mailings via FedEx, UPS and the United States Postal Service to send sensitive Visa documents both internationally and nationally.

Lyngo, Remote — ESOL Teacher (2018 - 2019)

- Independently worked to teach Japanese professionals one-on-one via Skype.
- Taught new students daily and I would tailor lessons to the students English proficiency.
- Actively created an environment where students could feel comfortable making mistakes.

Mary's Place, Seattle, WA — Youth Services (2016 - 2017)

- Developed a structured early childhood education program with help from my team.
- Coordinated with local partners and volunteers to provide children with support and unique learning experiences.
- Activity listened to the families and children we served to provide them with specialized care and support.

EDUCATION

Epicodus, Remote — C#/React

- Completed a 27 week, full-time program in development using JavaScript, C# and React
- Developed skills needed to work on a Dev Team through pair programming and group programming.

University of Northern Colorado, Greeley, CO — International Affairs

- Minor in Asian Studies and Anthropology
- Study Abroad Program - Aoyama Gakuin Daigaku, Tokyo, Japan
- Over 24 Credit hours learning Japanese

SKILLS

Programming Languages:

- JavaScript
- TypeScript
- C#

Frameworks:

- React.js
- Express.js
- ASP.NET Core 2.0
- Entity Framework

Testing:

- Jest
- MS Testing

Database:

- Postgres
- MySQL
- NoSQL

Other:

- Canvas API
- Three.js
- React-three-fiber

Interpersonal:

- Teamwork
- Creativity
- Flexible
